Doctor Tells How to Shed Bad Complexion

We acanot restore degenerated facial tissue ut complexion into a new one. The rational procedure is to remove the complexion instead—remove the devitalized cuticle. Not by surgical means, however, as the underlying cutis is too thin, too tender, to withstand immediate exposure. Applying ordi-

stand immediate exposure. Applying ordinary mercolized wax will gradually absorb the offending cuticle. By degrees a new, youthful skin appears, a skin soft and delicately finted as a rose petal.

No lady need hesitate to try this. Procure an ounce of mercolized wax of the druggist. Spread on a thin layer before retiring, removing this in the morning with soap and water. In from one to two weeks the complexion is completely transformed.

An approved treatment for wrinkles is provided by dissolving an ounce of powdered saxofite in a half plut of witch hazel. Bathing the face in the solution brings prompt and remarkable results.—Dr. R. Mackenzie in Popular Medicine.—Adv.

The charm of a good dinner is to have all the hot dishes hot, and hot at the same time. IMPORTANCE OF SYSTEM

Again Mrs. Chase laid emphasis on the importance of system and order accessary in the preparation of a meal. Meals must be held at regular hours, and it is not at all good for the body to follow the example of the snark, "who frequently breakfasts at 5 o'clock tea and dines on the following day." Yesterday the demonstrator prepared before her interested and enthusiastic class a steaming salmon loaf with a lemon dressing, beef and macaront en casserole with tomato sauce, corn pudding, a Swedish steak, novelty en casserole with tomato sauce, corn pudding, a Swedish steak, novelty spinach with a cheese sauce, winding up the whole delicious program with muffins and Virginia Dare coffe, the majority of the audience remaining over a half-hour after the lecture had been concluded, plying Mrs. Chase with eager questions and telling her their experience with the biscuit and other receipts of the day previous.
